Attachment 2 – Question 13:

The Foundation for Nuclear Studies, a 501(c)(3) nonprofit, provides information and educational opportunities for policymakers and the general public about nuclear science and technology, with the objective of promoting sound national policy.

In an effort to expand our programming, the Foundation is embarking on this trip as part of our ongoing educational site tour series, which will provide congressional staff with firsthand knowledge of working nuclear plants and research facilities. Through our briefing series on the 2011 events in Japan, the Foundation discovered that even staffers with a background in nuclear fields lack firsthand experience with nuclear plants and demonstrated a strong interest in being able to tour a facility.

This trip should provide those staffers with relevant experience to make better informed policy decisions as they perform their various roles on Capitol Hill.

Attachment 3 – Question 15:

In pursuit of its mission to provide information and educational opportunities for policymakers and the general public about nuclear science and technology, the Foundation sponsors a highly regarded Congressional Briefing Series with forums on a broad spectrum of issues related to nuclear technology, ranging from medical isotopes to the transportation of nuclear materials. The events attract high-quality speakers and seek to provide a balanced presentation of differing perspectives.

Attachment 4 – Question 18

The Foundation selected Waynesboro, GA because it is the site location for Plant Vogtle. The site hosts two operating nuclear reactor units; and is currently constructing two new planned reactor units, which have received operating licensing approvals from the Nuclear Regulatory Commission. Additionally, Plant Vogtle is home to a new plant training simulator room. The reason for traveling to Augusta, GA is due to the city having the closest airport.

Attachment 5 – Questions 20 & 21

The Foundation has secured a group rate for the Augusta Marriott at the Convention Center of \$100 (before taxes) for the night of Wednesday, April 12. This rate is on par with the \$100 government per diem rate for Augusta, GA in April.

We chose the hotel due to its relative affordability, proximity to the airport, dining location and our destination in Waynesboro, GA. The proximity factor played a key role in our decision as we will be hosting our Wednesday night working dinner with the Southern Nuclear Next Generation Licensing & Policy Director, Amir Afzali, in the restaurant that is located in the hotel. We found that many restaurants in Augusta could not provide either the appropriate meal rate or large enough room to accommodate our group's working dinner. Additionally, the hotel will be able to provide a shuttle from the airport for our group and the hotel's café will be able to provide a boxed breakfast for our group in the morning. All of these considerations will cut down on additional travel costs.

Therefore, given the discount and the other considerations listed above, we felt that this hotel would provide us with the best rate and would enable us to stick to our itinerary. As a result we entered into a contract with them.
